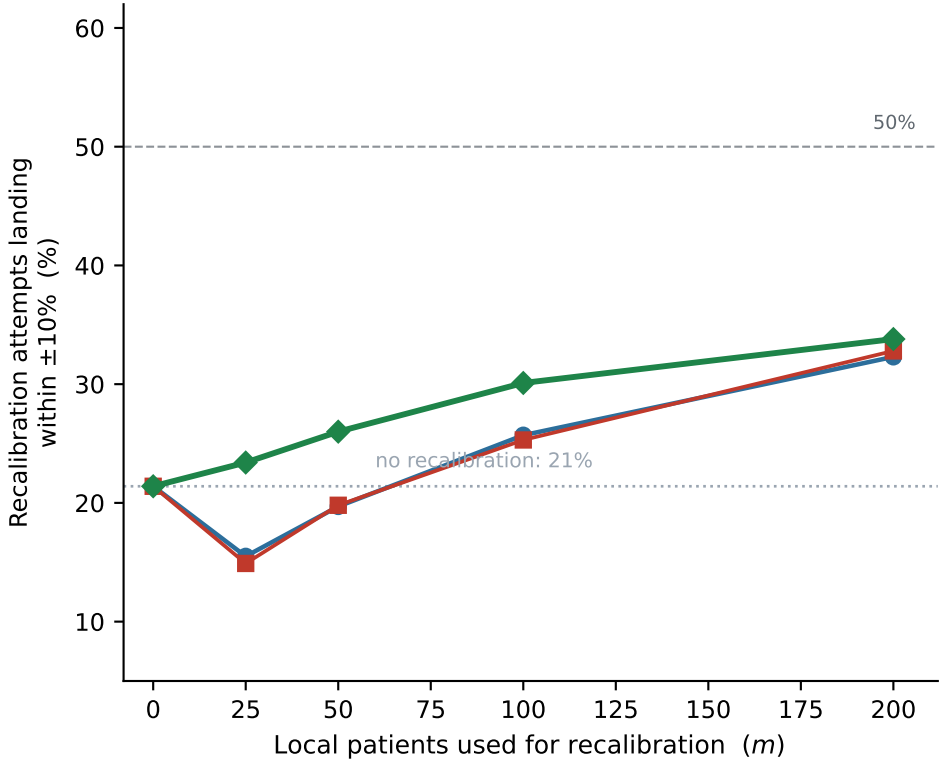
S0 No recalibration
S1 Naive, intercept only
S2 Naive, intercept + slope
S3 Empirical-Bayes shrinkage
no recalibration at all
|a| = 0.31
EB already beats
no recalibration
at m = 25
Residual miscalibration |a|
(median; band → P90)
Local patients used for recalibration (m)



50%
no recalibration: 21%
Recalibration attempts landing
within ±10% (%)
